The leader in Indigenous engagement strategy, implementation and consultation services.

What Sets Us Apart

Scott Land & Lease has many years of experience working with Indigenous communities in Canada. We have established trusted relationships with Indigenous groups and a broad network of contacts within the First Nations and Metis Settlements. Sensitivity to both Indigenous culture and concerns have led to success in knowing how to balance the interests of Indigenous peoples with the interests of our clients.

Strong local management **with full service offices** across Canada:
Calgary, Edmonton, Grande Prairie, Lloydminster, Regina, Vancouver and Toronto.

Our Advantages

Over the last thirty years Scott Land & Lease has completed more than 7,000 First Nations and Metis Settlement consultations.

Scott Land has been working with Indigenous communities for over 30 years and we believe we have one of the most experienced Indigenous Relations teams in our industry. We have worked on both Provincially and Federally regulated projects, from single well sites to large linear projects and government infrastructure. We have a great group of field agents who are continually engaged and keep up-to-date on community events. Through years of experience, our administration staff have developed tried and tested processes for tracking engagement records and mitigation steps to produce accurate and complete documentation efficiently and on time, the first time. This provides our clients with a significant edge. Let our experience work for you on your next project.

Our Services

- Ongoing Community Relationships
- Complete Milestone Tracking and Reporting
- Experienced and Professional Field Agents
- Concern and Mitigation Management
- Accurate Documentation
- Budget Preparation
- Timely Submissions
- Seamless Crown Surface Land Team Collaboration
- Submission Experience that Avoids Rejections
- Strategic Planning Advice

Gregg Scott
President

"The Scott Land & Lease First Nation Engagement team has managed our company's pipeline project's First Nation consultation process exceedingly well. The "extra mile" extended to assist First Nations' representatives in Right-of-way and site assessment, the conscientious administration of the regulatory notification, consultation logs, application submissions, and persistence in meeting time lines was greatly appreciated.

It is one of the primary reasons we achieved our ACO adequacy decision significantly in advance of our targeted time lines. We have no hesitations in recommending the Scott Land & Lease First Nation Engagement team to other industry proponents."
– Land Coordinator at Large Oil & Gas Company
