

STAKEHOLDER ENGAGEMENT SERVICES

Working with stakeholders to move your project forward

Stakeholder engagement is a critical component of all infrastructure projects. Scott Land & Lease has in-depth knowledge of government and regulatory affairs as well as strong stakeholder relationships and is a member of IAP2 (International Association for Public Participation). We can handle all aspects of engagement activities including strategic development, identification of stakeholders, fostering stakeholder relationships, engaging in meaningful dialogue, accurate and thorough reporting, project management and strategic recommendations.

Our Advantage

Our people and our expertise are what set us apart, having completed hundreds of consultation projects across Canada involving thousands of stakeholders – from individual landowners and their advocates to government agencies, Indigenous communities and corporate interests. We focus on inclusion and accommodation, thoroughness and responsiveness, transparency, and complete, clear and accurate documentation across the project's lifecycle from action plan to outcomes. Our team excels in timely and meaningful consultation, moving your project forward on time and on budget.

The leader in stakeholder engagement strategy, development, implementation and logistical services

Client Testimonials

“Joss Wind has worked with Scott Land on a number of different wind farms over the past several years. We have found their staff to be knowledgeable, practical, and very good to work with.”

— Bryan Clake, President, Joss Wind Power Inc.

“Scott Land’s Project Manager for our team is a great individual to work with. They are on top of everything and are always going the extra mile to make sure I get what I need on our projects. Our Scott Land Project Manager is personable and manages any issues or conflicts with ease and professionalism.”

— Consultation Specialist, Altalink

“Thanks! This is an impressive Participant Involvement Program package, nice work!”

— President, Environmental Company
